

DIGITAL MARKETING AT ITS PEAK

STATUS QUO

Most companies we talk to today express concerns in multiple areas including:

- They get very little, inconsistent or conflicting information on digital marketing results.
- They are frustrated not knowing how digital marketing dollars are performing.
- Feel uncertain of where/how to spend digital marketing dollars in the future.
- Are tired of getting canned solutions that are not tailored to fit their business.
- Are feeling 'left in the dark', not getting the service they want and need.
- Feel they're not getting all they can from their current agency or in-house team.
- Are partially or totally confused and need help with SEO, PPC & Social Media.

BENEFICIARIES OF OUR EXPERIENCE

BENEFICIARIES OF OUR EXPERIENCE

SEO: HOW ORGANIC SEARCH WORKS

- Three components or legs of the SEO stool
 - ▶ Technical SEO (Website Configuration)
 - ▶ On-Page SEO (Content SEO)
 - ▶ Off-Page SEO (Link-building)
- Agency helps site become more searchable and findable based on how Google, Bing and other search engines crawl and understand the website.
- Improvements to organic search rankings gain more traffic because prospective and returning customers are more likely to visit a site that is ranked higher.
- Targeting the right keywords helps companies gain more targeted traffic that is more likely to convert.
- Works well in B2B, B2C, and B2 (recruiting) and across all industries and geographies.

PPC: HOW PAID SEARCH WORKS

- Advertisers bid on "keywords" that match to search queries typed in by users.
 - ▶ There are many options on when to target customers, how to target them, and who to target.
- Users click on the ad (created by the advertiser in AdWords) and the advertiser is charged only when the user chooses to click on the ad.
- Users interact with the site and advertisers can see metrics for those interactions.
- Advertisers set up "conversion goals" and are able to see cost per conversion when a user makes a purchase, signs up with email, etc.

PAID SEARCH TARGETING OPTIONS:

- **In Market Audiences:** Audiences of users who have been searching for services like the ones you offer. A few options include: Sporting & Fitness, Real Estate, Financial Services, etc.
- **Remarketing:** You can target users who have already interacted with you in some way (website or ad).
- **Similar Audiences:** Users who have similar interests to those in your remarketing lists.
- **Demographics:**
 - ▶ Location (Country, State, City, and Zip)
 - Age Groups
 - Gender
 - Device Type (Computers, Mobile Phones, Tablets, and TV Screens)
 - Household income
