

MD STOCK INTERNATIONAL

We want to be your number one supplier for all your hospital needs.

We have millions of high-quality supplies for your hospital from the brands you can trust without the high prices.

We specialize in large orders and save hundreds to thousands of dollars for our hospital partners. Our pricing is the best in the industry because we have direct-to-manufacturer relationships. We can put together special orders for anything you may need from disposables to hard to find medical equipment.

We want to be your number one supplier for all your hospital needs.

We are your partner in buying monthly disposables, high quality medical equipment and your source for selling pre-owned medical equipment.

We have championed supply and demand in the provision of medical, surgical supplies, laboratory chemicals, laboratory consumables, diagnostic equipment, dental consumables, microbiology, clinical chemistry, instruments, pharmaceuticals, and industrial products.

There are a lot of reasons to work with us:

- Direct-to-manufacturer pricing. We are a direct distributor and not a broker. We can give you the best pricing and we can prove it.
- You can see potential savings of 20-65% over established supply chain procurement. How can this be? Simple: by buying direct and eliminating the huge mark-ups and costs charged by medical distributors and GPOs, purchasing managers can now capture those savings.

Medical Supplies Consultancy Service for Medical Institutions

We offer sales support in:

- Lab Design and Furnishing
- Laboratory Supplies, Chemicals and Equipments
- Pharmaceutical Products
- Clinical Lab Instruments
- Diagnostic Kits and Controls
- Personal Protection Equipment

Just some of our standards you can expect from MD Stock International

- Up-to-date, comparable manufacturing quality standards
- Compliance with US (FDA, etc.) regulations
- Validation information.
- IFU information.
- Our catalog of products is expanding daily and we have millions of SKUs
- We can deal directly with the manufacturer in purchasing.
- You can set up to order products based on per use and on a case-by-case basis.

**We have access to thousands of opportunities
in pre-owned high-quality supplies**

We can source what you need!

Besides the direct manufacturer relationships, we can source the supplies and medical equipment you need fast!

We have over 100 health care location partners including labs, hospitals and several others where we can source high quality pre-owned and even cost friendly medical equipment.

Send us your current purchase orders and we will build you a quote

If you will share with us your current purchase orders, we will go right to work to build a comparison quote. You will be very surprised at the cost savings we can offer you immediately!

Once we have sent the quote, we can convert that into a purchase order for monthly supply shipments starting immediately. We give you a log in where you can add to your order and search for other supplies you may need from our millions of high-quality supplies.

LIST YOUR EQUIPMENT WITH US

We want to know what you have to list and can set up your account in our software making it very easy to list your supplies and equipment as you replace it!

Want to replace the old equipment from your hospital? List your equipment with us and we will find buyers for you! As your medical sales partners, we will help you get the best prices for your old equipment and supplies and have buyers internationally that are looking for these opportunities on a daily basis.
