*Powerful Network Marketing Technology*

# INTRODUCTION

ApogeeINVENT has been providing world-class e-commerce and marketing technology to businesses for over 14 years with outstanding results. Comprised of more than 30 professionals programmers, designers, and administrators. ApogeeINVENT focuses on technological innovation and outstanding customer service.

CLIENT SUCCESS IS APOGEEINVENT'S #1 PRIORITY.

## A CORPORATE WEBSITE

For many network marketing businesses, the website is the first impression many people have of the company.

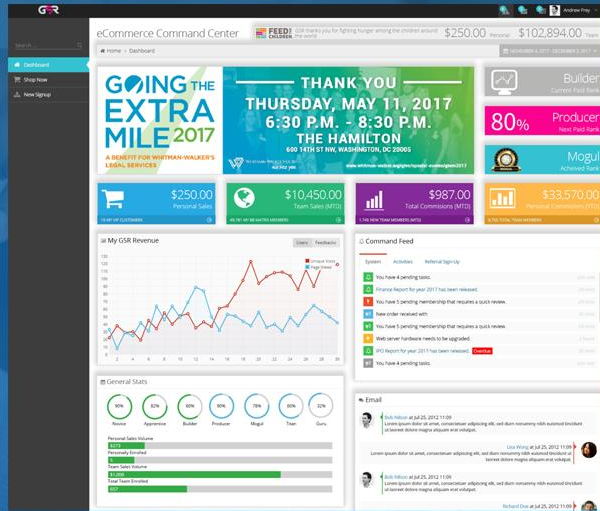

A professional, modern website will give the right impression to first-time customers and potential distributors. Great customer experience comes from a well-designed website that functions properly.

Take the extra time to have a great website designed and test it often to ensure the experience is a good one. We know how important first impressions are, which is why we use the best UI / UX designers on the front-end and the member dashboard to give potential recruits or customers and long-time users the same seamless experience.

## CONTACT MANAGER / CRM

### COMMUNICATE

- People are at the core of any successful network marketing business. Having a way to keep in touch with people is crucial to MLM success. A good Contact Manager (CRM) will help make sure no one slips through the cracks.
- Distributors need a way to communicate easily with their leaders so they feel like they are part of a community and that they are being supported.

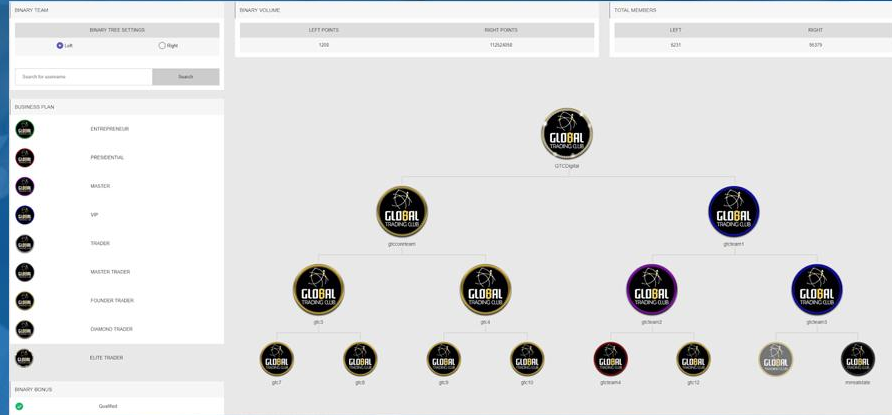

### AUTOMATE

- A great CRM should include the ability to view your customers and distributors, to easily segment them, to collect new leads, and to know when and where people are coming from by assigning labels or tags based on their status.
- Through the Titan CRM, you can also set up automated emails that help recruit new members and encourage existing members.

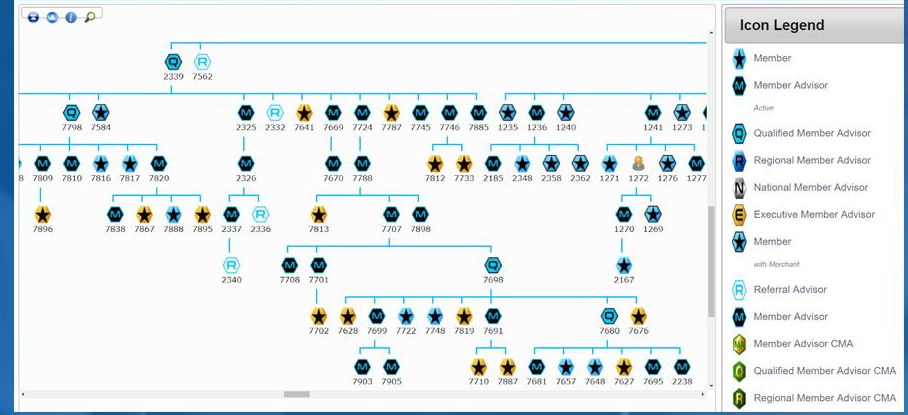

### TRACK

- The CRM you need should also allow you to track emails so that you know who you've been in touch with, who is clicking, who is active in your organization, and who your top customers are.

# FULL-FEATURED REPLICATED WEBSITES

Replicated Websites for your network of distributors is essential to help them succeed while keeping your branding consistent.

A replicated website is a member website similar to your corporate website created for distributors to market their products and recruit. It provides a place on the web to collect and manage leads, sell products, and communicate through email and a personal blog.

Give your members the tools they need to become leaders in your business.

# POWERFUL ECOMMERCE SHOPPING CART

Display your products in their best light.

We can help with package design and have helped companies connect with the necessary third parties to make their product a success. Whether virtual or physical, we can help you find the best path from concept to sale.

Once you have the perfect product(s), you need a conversion-optimized e-commerce system.

A powerful shopping cart should include a simple checkout procedure for the end user, beautiful graphical displays of products, and secure transactions.

Your management team can easily add or edit products.

Our e-commerce is safe, secure, and compliant with industry standards.
